BUSINESS INDEX.

Representing the Solid Commercial Men, Manufacturers, Financial and Professional Firms of Holland.

A GUIDE POST.

Point out the whereabouts of the City's Capital, Energy and Genius. Those Who Contribute to the Commercial and Professional Activity.

A Carefully Classified Index of the Business Houses, Manufacturing Establishments, Professional and Financial Institutions of Holland.

READ AND PRESERVE.

We take pleasure in presenting to the readers of the News a classified index of the principal manufacturers, merchants, financial and professional men of the city, making as fine an array of leaders in the different departments of trade and professions as has ever been published. It is a handy reference, and contains the names of enterprising and leading citizens, who have earned and are in full enjoyment of good and honorable reputations in all the spheres of commerce, manufacture and the professions. We claim for them one and all, that they are distinguished for enterprise, ability, probability and success. They are foremost bankers, lawyers, physicians, etc.

When taken together they may fairly be regarded as leaders in the different departments of commercial and professional activity. Located in Ottawa County, on the main line of the C. & W. M. Ry., at the junction of the Grand Rapids and Allegan branches, 20 miles south of Grand Haven, the county seat, 25 miles southwest of Grand Rapids and 15 from Detroit via Lansing and Grand Rapids.

It has a good natural harbor at the head of Black Lake, which has a permanent channel of 12 feet. Hope College, which was located here in 1865 and is open to students of both sexes, the courses are thorough and the staff very efficient; those who graduate from this school of learning attain high rank in the scholastic and the mercantile world.

With such a fine commercial and industrial exhibit, magnificent location, educational facilities, the enterprising character of its residents, all combined to make it an excellence—the Queen City of Michigan. The future of Holland is certainly bright. Let the capital, energy and genius of the people upon and make the most of this great natural advantage. This done, business and trade of every description will flow in and over this land which offers the finest manufacturing sites in the state.

This index is not only printed in the News, but also reproduced on cards and for free distribution throughout the country. O. H. H. R. Co., 123 N. W. 1st St., Grand Rapids, Mich., is the publisher.

SATURDAY, APRIL 14, 1894.

South Ottawa and West Allegan Agricultural Association.

A public meeting of the citizens of Holland will be held in G. A. R. hall, on Thursday, April 19, 1894, at 7:30 p. m.

The meeting is called in accordance with a resolution adopted at the annual meeting of the society held in December, for the purpose of promoting the interests of the society and securing the success of the next fair.

Let all attend, the business men especially.

By order of the board of directors.

A. G. VAN HEESE, President.

J. KERKHOFF, Secretary.

J. H. BOONE, Director.

During the week the Fair officers whose names are affixed to the above call have interested themselves in behalf of the object therein stated to the extent that they have made a personal canvass of the various manufacturing establishments in this city with a view of enlisting their support. Up to this writing they have been pledged the hearty co-operation on the part of the West Michigan, Ottawa, Lakeside, and Holland furniture factories; C. L. King and Co., J. and A. Van Putten, Phoenix and Aetna planing mills, Waverly Stone Co., Walsh-De-Roo roller mills, Jacob Flieman, Ben Van Raalte, and others. All of these have agreed to stand by the board of directors and make a creditable exhibit of their manufactures. Others will be called upon in the course of the week or so.

The directors on their part have agreed to set aside Agricultural Hall and devote it entirely to the exhibit of the manufactures comprised within the territory of the society, and the inside of the hall will be re-arranged accordingly.

With a view of enlisting also the good will and enterprise of the merchants and exhibitors in the woman's department, Art hall will be entirely re-modeled and renovated. A renewed interest on the part of the women is especially desired by the board and everything will be done on their part to encourage this.

One of the objective features at the meeting above called will be to enlist the co-operation of merchants. As a class they have not come up in the past to what was reasonably expected from them. On this occasion our retail dealers should make themselves conspicuous, be heard from, and take up a laboring oar, something they have not been accused of in late years.

The meetings will be held in G. A. R. hall. Mayor Hummer has been requested to preside and addresses will be made by several of our representative men.

The Electric Light Litigation.

In our issue of Jan. 27 we gave in full the bill of complaint filed by the Wolverine Electric Light Co. against the city, wherein it prays for a permanent injunction against the latter from engaging in commercial lighting. The answer of the city to this bill was filed March 28, and is as follows:

STATE OF MICHIGAN, Circuit Court for the County of Ottawa, In Chancery.

WOLVERINE ELECTRIC LIGHT CO. COMPLAINANT.

vs. THE CITY OF HOLLAND, DEFENDANT.

Answer of the City of Holland, Defendant, to the Bill of Complaint of the Wolverine Electric Light Company, Complainant.

Now and at all times hereafter saving and reserving unto itself the benefit and advantage of exception, which can or may be had or taken to the many errors, uncertainties and other imperfections, in the said bill contained, for answer thereto, or to so much and such parts thereof, as this defendant is advised it is or is material or necessary for it to make answer unto, answering says:—

First. This defendant admits that the complainant herein is a corporation organized under, and doing business pursuant to the laws of the state of Michigan, and is a citizen and inhabitant of the city of Holland, county of Ottawa and state of Michigan.

Second. This defendant is not informed and does not know what the capital stock of the said Wolverine Electric Light Company is, and is not informed and does not know what part of said stock has been paid in, in cash, and does not know and is not informed how much money said complainant has invested in plant, fixtures, wire, poles and electric lighting apparatus.

Third. This defendant is not informed and does not know how much money was expended by said complainant in the building of its plant and in the construction and extension of its business operations, for the purpose of furnishing commercial lighting to the inhabitants of the city of Holland.

Fourth. This defendant denies that it has through its corporate officers induced said complainant to invest its money in said enterprise, and further denies that said complainant has invested its money upon the full faith and reliance that when it was in a situation to furnish light for commercial purposes, it would be at liberty to do so without let or hindrance on the part of this defendant, and without being compelled to go into competition with this defendant in the business of commercial lighting; but this defendant asserts the truth to be that said complainant owns and operates an electric light plant, which it bought from Alfred Huntley, W. A. Holley and others, during the year 1892, which said plant has been enlarged and extended by complainant; that on or about the 15th day of July, A. D. 1890, said Alfred Huntley and W. A. Holley presented to the common council of the city of Holland the following petition, as follows:—

HOLLAND, Mich., July 14, 1890.

To the Honorable, the Mayor and Common Council of the City of Holland.

We, the undersigned, having built and operated a small electric light plant in this city, and having been repeatedly asked by some of our citizens why we did not put in a larger plant and light their stores and offices, have concluded to put in such a plant at once. We would therefore respectfully petition your honorable body for permission to erect a line of poles on the streets of this city for the purpose of operating an electric light plant for commercial purposes. We propose to use the Edison, three-wire, incandescent system, which is perfectly harmless to persons and property, under all circumstances, and expect to commence construction at once. We guarantee a good light at reasonable figures.

Hoping and expecting to receive favorable consideration at your hands, your petitioners will ever pray.

Very Respectfully, ALFRED HUNTLEY, W. A. HOLLEY.

Which said petition was referred by the common council to its committee on streets and bridges.

That on the 10th day of Aug., A. D. 1890, at a meeting of the common council of said city of Holland, said committee on streets and bridges submitted the following report to said said common council, as follows:

HOLLAND, Mich., Aug. 17th, 1890.

To the Honorable the Mayor and the Common Council of the City of Holland.

Your committee to who was referred the petition of Messrs. A. Huntley and W. A. Holley, for the privilege of erecting poles in the streets of the city for conducting an electric light system for commercial purposes, would respectfully report and recommend that the prayer of the petitioners be granted, in view of the fact that such a system seems to be demanded in the immediate future by a large number of our business houses and manufacturers.

We also recommend that if such a privilege be granted, that it be with the understanding that if at any future time the city should conclude to establish an electric plant for street and commercial purposes, to be owned and controlled by the city, the said Alfred Huntley and W. A. Holley shall be required to give up said privilege and remove the poles forthwith, or comply with such other measure as may be directed by the common council.

JOHN KRAMER, OTTO BREYMAN, J. A. TER VREE, Committee.

And that upon the motion of Ald. Habermann said report and recommendations contained therein were adopted by said common council, as will more fully appear by the records of the proceedings of the common council of said city, reference being had thereto.

The defendant further answering says, that no other rights or privileges whatever have been given by the common council of said city to any person in relation to the erection and keeping of poles for electric light in the streets of said city, and that complainant has no right and privileges in said streets, except such as it may have acquired as successor to said Alfred Huntley, W. A. Holley and others; that said complainant before engaging in said business well understood that if at any future time this defendant should conclude to establish an electric light plant for street and commercial purposes, to be owned and controlled by this defendant, that thereafter the right granted by this defendant to said Alfred Huntley and W. A. Holley in relation to the erecting and keeping of poles in the streets of the city should cease at the option of the common council of said city.

Fifth. This defendant admits that at the time when the complainant first engaged in said business of operating an electric light plant for commercial lighting this defendant had no power or authority to engage in commercial lighting.

Sixth. This defendant admits that during the last session of the Michigan state legislature it caused to be passed an act reincorporating said city of Holland, and asserts that in said new charter of said city, being Act No. 271 of the local acts of the year 1893, complete power and authority is given to this defendant to erect and maintain an electric light plant, for lighting the streets and public places of the city and for supplying the inhabitants thereof with electric light or commercial light, so-called.

Seventh. This defendant admits that in conformity with the said new charter of said city, as aforesaid, certain steps were taken for the purpose of authorizing this defendant to engage, among other things, in the business of furnishing its inhabitants with electric light.

Eighth. This defendant denies that said Act No. 271, reincorporating said city of Holland, is unconstitutional and void in so far as it attempts and assumes to give to said city of Holland power and authority to engage in said business of commercial lighting; but it asserts that said act is constitutional and confers complete and full authority upon this defendant to engage in the business of furnishing its inhabitants with commercial light.

Ninth. This defendant denies that the proper and necessary steps to confer the authority upon this defendant to engage in said business of commercial lighting have not been legally taken; this defendant denies that said proceedings are defective in any part, and asserts that each and every step and proceeding taken therein is regular and in accordance with law and the provisions in said charter contained, and confers the necessary authority upon this defendant to furnish its inhabitants with electric light or commercial light, so-called.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osooon, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOE, Conway, Ark.

The Centaur Company, 71 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ANCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

ALLEN C. SMITH, Pres.,

The Centaur Company, 71 Murray Street, New York City.

Tenth. This defendant asserts that the said legislature had complete and ample power to confer upon said defendant the authority to engage in the business of furnishing its inhabitants with electric light, or commercial light, so-called, and that all the necessary steps to authorize this defendant to engage in such business have been duly taken, and that this defendant is not precluded from engaging in the said business for the reason that said complainant has invested money in said business in said city of Holland, nor for any other reason; that said complainant engaged in said business of commercial lighting, well knowing and understanding that this defendant might at some time in the future engage in said business, and that in the resolution passed by the common council of said city, as set forth in paragraph 4 of this answer, ample notice was given thereof by the defendant.

Defendant further answering says, that at the time when said complainant invested its money in said electric light plant, and engaged in the business of electric lighting for commercial purposes, the question of establishing an electric light plant for public lighting and for commercial purposes and of amending the city charter so as to allow the city to engage in the business of commercial lighting was seriously agitated by the people of said city of Holland, of which said agitation complainant was well aware. Defendant further answering says, that when complainant invested its money in said electric light plant and engaged in the business of electric lighting it assumed the risk that this defendant might at some future time engage in the business of furnishing its inhabitants with commercial light, and that if, as the result of this defendant's so engaging in said business of commercial lighting as aforesaid, the business of said complainant should become less profitable and its plant less valuable, this defendant could not therefore be precluded from furnishing its inhabitants with electric light, said complainant having voluntarily assumed such risk when it invested its money in said business.

Eleventh. This defendant further answering asserts, that it has the right to furnish the city of Holland with light for public purposes, and also that it has the right of furnishing the inhabitants thereof with electric light, or to engage in the business of commercial lighting, so-called.

Twelfth. This defendant further answering says, that it has erected an electric light plant, or system of electric lighting, for lighting the streets and public places of the city, and also for supplying the inhabitants of the city with electric lights, or commercial light, so-called; that said plant is now operated in connection with the water works of said city, and that at the time of the making of this answer said plant is in actual operation and this defendant is actually engaged in lighting the streets and public places of said city with such light and in furnishing the inhabitants thereof with commercial light, so-called.

Thirteenth. This defendant admits that said complainant is a tax payer of said city of Holland, county of Ottawa and state of Michigan, and that said complainant has been taxed like other citizens of said city, and asserts that it will be taxed like other citizens of said city upon any property which it may have within said city.

And this defendant further answering denies that complainant is entitled to the relief or any part thereof in the said bill of complaint demanded, and prays the same advantage of this bill of complaint demanded, and prays the same advantage of this answer as if it had pleaded or demurred to said bill of complaint, and prays to be dismissed with its reasonable costs and charges, in this behalf most wrongfully sustained.

THE CITY OF HOLLAND, GEORGE P. HUMMER, Mayor.

GEORGE H. SIPP, City Clerk. GERRIT J. DIEKEMA, Solicitor for Defendant.

Washington Notes

As to remedies by association, Senator Peffer says that if we are right in our conclusion that modern condition of production tends to cheapen the farmers must meet this tendency by reducing the cost of what they produce. He has a high opinion of the Patrons of Husbandry and similar associations, but he recognizes that the farmer, because of his isolation, is at a disadvantage when it comes to combining in order to maintain prices. He strongly urges the rotation of crops.

Incidentally, in his discussion of the wheat market, he says that it matters not whenever farmers market their

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds, Smea Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup or whooping cough, that it cures their ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by Heber Walsh, druggist.

Those who have read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how a prominent German citizen of St. Madison had been cured. He procured the same medicine, and to use his own words: "It cured me right up!" He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do all the cooking. I told him of Chamberlain's Pain-Balm and how it had cured me; he got a bottle and it cured them up in a week. 50 cent bottles for sale by Heber Walsh, Druggist.

Great Closing Out Sale.

Only about 50 of them left so you had better hustle in and get one before they are all gone, and while there, look over our fine stock of serpentine crepes, pineapple tissues, swiss zephyrs, shantung pongees, Windsor shirtings, toile du nords, domietta cloth and Everett classics. Remember everything in the store goes at cost.

THE number of red foxes in Missouri is increasing very rapidly. In some places there are enough to do considerable damage to crops. There is no known reason for this increase except that fox-hunting, which was at one time the most popular sport in the country, died out to a large extent on account of the scarcity of foxes, and has not been renewed. It would not be at all difficult now to find the animals, and that, too, within a very short distance of St. Louis.

Mrs. MARY HEMENWAY, a philanthropist of Boston, who died recently, aged seventy-five years, has done much to advance the study of American history among young people. She gave one-half of the two hundred thousand dollars necessary for the preservation of the historic Old South Church, and contributed generously to researches in American archeology and ethnology.

MINNESOTA is not a very old state but it is said she has already more than five million dollars invested in public buildings and ten million dollars in her school fund, with one million acres of university land yet unsold.

The Finest Landscape Painting in the World

"Niagara in Winter."

The People of Grand Rapids and Surrounding Cities to Receive a Rare Treat FREE OF CHARGE.

Only a small percentage of the inhabitants of Michigan have ever seen the United States' great attraction, the "Niagara Falls." Still a smaller percentage have ever seen the Niagara in winter. We have made arrangements, at a great expense, to exhibit the above picture,

"NIAGARA IN WINTER,"

at our store, commencing next Wednesday, April 11th, for

Four Weeks!

This picture is the work of the celebrated painter, P. Caledon Cameron. It is the largest landscape painting in the world, measuring 21x10 feet in frame, and covers 126 square feet of canvas. It was in hand six years, is valued at \$50,000 and is the most valued landscape in existence. Previous to painting it weighed 60 pounds, after completion, 103 pounds. The picture with frame weighs 600 pounds.

We extend a most cordial invitation to the people of Grand Rapids and surrounding cities to come and see this magnificent picture, as you may never have another opportunity of seeing such a grand work of art.

This picture will be exhibited only in two cities in Michigan, Detroit and Grand Rapids.

Visitors are advised to bring their opera glasses.

We will have all convenience possible to accommodate all visitors from near and far.

Voigt, Herpolsheimer & Company,
78, 80 & 82 Monroe Street,
GRAND RAPIDS, MICH.

N. B.—Would advise all who can, to come in the forenoon, as we expect, judging by precedent in cities where it has been exhibited, like Philadelphia, Boston, New York and Brooklyn, the crowds in the after noon were so large that it could not be seen to advantage.

Thirty-two reasons why the Story & Clark organ is the Best.

1. Our tone is mathematically and theoretically correct; is based on principles and proved.
2. Our cases are the latest and most unique in architectural beauty, and always popular. So successful are they that unprincipled organ manufacturers often copy bodily.
3. Cases are heavy and of solid walnut, or of any hardwood. Never misrepresented.
4. Cases are framed and paneled. No wide boards. No warping or splitting.
5. Large bellows and wind-chest. Full capacity; gauged accurately.
6. Our top drops back on hinges, exposing to full view the whole interior; take out two screws.
7. Cases are mouse proof. Mice have no access to vital part of organ.
8. The reeds can be easily reached. By simply turning a button, a door in the back opens on hinges.
9. Our pedals are boxed up close, leaving no open space that would be unpleasant to the sight.
10. Our action is trim and practical and cannot get out of order. Wires are nickel-plated, and the simplest mechanism used with direct results, giving largest variety of tone effects from stop combination.
11. Our foundation-boards are framed and paneled; cannot warp or split, consequently, bellows never leak.
12. Our keys never fall; pitmans and valves being so arranged that they cannot possibly be displaced.
13. Our keys do not stick; pitman rods are thoroughly relieved and holes to received them large enough to allow for swelling and shrinking.
14. Action bushed with fine felt at every bearing to prevent jarring or rattling.
15. Key-board frame is strongly supported by two dowel pins on each end, and iron brace in back center and front.
16. Our organs have the Wilcox octave coupler, the best in use; is simple in mechanism, never gets out of order, and for endurance is without an equal.
17. We use the dull rubber cloth; lasts longer and is in keeping with good work and material.
18. Our closing music pocket protects and keeps sheet music free from dust.
19. Many of our cases have elegant French-plate mirrors, the most costly and perfect, with the indestructible patent-back.
20. The stop knob is the latest model; is of high grade china, highly decorated; will never become in the least affected by time, wind or weather. Old defects cease. Cannot crack. Letters or faces never wear off.
21. The swinging fall-board never sticks at side; always runs perfect and smooth.
22. The anti-friction patent roller which relieves friction, makes the knee swell the easiest in use.
23. The grand organ is the most perfect known, is patented, and for graduating purposes in general is marvelous.
24. Highest grades of felt are used.
25. Highest grades of specially tanned leather are used.
26. Highest grades of all stock material are used.
27. The oxidized silver ornamentation on special cases, the costliest made.
28. Our pedals are absolutely non-squeaking.
29. Our bellows webbing is detachable and adjusted to pedals by a simple button-hole attachment.
30. Our nickel finger-guard protects the name-board and adds to the beauty of the organ.
31. Our case can be so taken apart as to pass the smallest practical opening.
32. We make but one grade of actions—that the best.
